

# CIS Benchmark

You can find significant hardening steps for a Kubernetes cluster in the Center for Internet Security's benchmark document for Kubernetes.

<https://www.cisecurity.org/benchmark/kubernetes/>

You can test your cluster with Aqua Security kube-bench tool:

<https://github.com/aquasecurity/kube-bench>

# Kube-Bench

Exercise

kubernetes-cis-benchmark-and-kube-bench

Please run

```
/sync2/bin/update-cluster-dns.sh
```

# Kube-Hunter

Exercise
